

DOYON UTILITIES TRANSITION UPDATE

— May 23, 2008

FYI

- Several Doyon Utilities employees met with AFFES, GCI, ACS, the 59th Signal and Contracting Officers Representatives this week to discuss communications at FGA, FRA and FWA. The meeting was held to discuss policies and issues regarding pole attachments, communication removal from utilidors, and government supplied communication channels.
- As we reported in our newsletter last week, Martha Gray, Contracting Officer, Brian Koessel, Assistant Contracting Officer, Curt Wexel, Utilities Privatization Program Manager, and several folks from C.H. Guernsey, took tours of all installations. The picture below is a group shot taken during the group tour of Fort Greely and the Fort Wainwright remote site visits at Black Rapids and Bolio Lakes.

84 Days Until Transition

Fort Greely

- Meetings were held with Missile Defense and Alyeska Pipeline to discuss the outage required on the 138kV line. This outage is required to energize the new FGA substations.
- Bids for the right of way clearing on the feeder 9 & 5 upgrade projects are expected in June.
- Crews are currently backfilling the Operations Depot foundation; we expect them to set forms and rebar next week.

Staffing

Melissa Smith started work on Monday as the DU Fort Greely Administrative Assistant. Mike Lanegan, FGA Site Manager, is thrilled to have her on his team as she has hit the ground running.

Diane Wallis has accepted the position of the Fort Wainwright Administrative Assistant, she will begin work on Tuesday, May 27th.

We received several resumes during our second round of recruiting for the **Fort Richardson Administrative Assistant**. First interviews will take place soon.

The second round of interviews for the **Purchasing Coordinator position** will take place next week. We should be able to make an offer of employment by the end of the week.

We are beginning the process of reviewing the resumes for the **CFO** position.

Other Positions currently recruiting for:

- Health & Safety Coordinator
- Environmental Program Manager
- Scheduler/Assistant Project Manager
- Environmental Intern

Shelly Clemens, the current Administrative Assistant in our Fairbanks Corporate Office is scheduled to work her last day at DU on June 11th. Shelly's husband, SFC(P) Shawn Clemens, is being transferred to South Dakota so the whole Clemens family will of course need to follow (as much as we would like this not to be the case). We have started the search for a strong candidate to take over the reins from her.
