

DOYON UTILITIES TRANSITION UPDATE

— July 3, 2008

Fort Greely

- The construction crew started pouring the mezzanine concrete at 5:00 am on Wednesday morning. The siding is going up and the building is really starting to come together (see picture below).
- We received proposals for the substation building this week.

outer walls going up*

Miscellaneous

- We have received and are reviewing draft characterization study reports on the I&C (Instrumentation & Control)/SCADA systems.
- Our offices will be closed on Friday in observance of the 4th of July. Have a safe, relaxing and enjoyable holiday weekend.

43 Days Until Transition

Fort Richardson

- Substation construction is 75% complete; commissioning will begin in approximately one week.
- The construction crews are framing in the offices to the Operations Depot (see picture below).

DOYON UTILITIES TRANSITION UPDATE

July 3, 2008

Fort Wainwright

- The offices in the Operations Depot are being framed in (see picture below).
- We have received bids to overhaul turbines 4 & 5; work will begin on this project later this month.

FWA Operations Depot

(see description below)

Pictured from back - Rufus Bunch, Doyon Utilities CHPP Superintendent, George Ferree, Aurora Energy contractor, and Shayne Coiley, Doyon Utilities FWA Project Manager pose for a picture in the temporary depot site at Fort Wainwright.

New Hires

We are pleased to welcome **Alba Diaz-Carmona** as the new Administrative Assistant at Fort Richardson. Alba started work on Monday and came to us from the Providence Cancer Center in Anchorage where she was the Administrative Coordinator.

Rufus Bunch officially joined our team this week as the CHPP Superintendent. As many of you know, Rufus has been working with us for some time as a contractor through Aurora Energy. We are thrilled to have him on board with Doyon Utilities.

We have hired a Health & Safety Coordinator, **Jeremy Phillips**, who will start work on Monday.

Staffing

The following Corporate office positions are still being recruited for:

- Environmental Program Manager
- Assistant Project Manager/Scheduler
- CFO

Interviews with utility employees have been moving right along. Over 60 interviews with individuals from the RIF (Reduction in Force) list have taken place thus far. We have extended 15 offers that have been accepted and many more offers will be made the week of July 14th.
